How to Program on CHIRP

1. After downloading the software, open the software and click the "Radio"→"Download From Radio" button. CHIRP

2. Choose a port consistent with Device Manager and choose the corresponding model and vendor.

📼 Radi	o	\times
Port	COM5	\sim
Vendor	Baofeng	\sim
Model	UV-5R	\sim
	<u>C</u> ancel <u>O</u> K	

3.Get into "Window Setting", then search "Device Manager"

- 🗆 🗙

4.Open "Device Manager", and unfold Port (COM & LPT) to check the existing port.

📼 Rad	io	×
Port	COM3	`
Vendor	Baofeng	`
Model	UV-5R	`
	Cancel	ОК

5. Successfully connected to the radio!
